

Testimonials

My Splash SuperPool is perfect! I can use it after work to cool off and get my exercise - and it's a wonderful addition for entertaining company. It's easy to maintain and looks beautiful with the deck we had built around it!

My wife and I love having our Splash Pool. We don't live close to the water, so getting to cool off with all the comforts of staying home really works for us. It was really easy to put up and took us only a couple of hours before we were ready for the water!

Thanks Splash! I no longer have to fight traffic and pay high gas prices to get to the water. I can just go home and relax - in my own Splash SuperPool! With the rock wall and decking we had built, it looks and feels like a custom, in-ground pool! I've owned many pools and the ease of maintenance with the Splash SuperPool® is incredible!

Everyone in our family enjoys our Splash SuperPool. I bought it right before Christmas for our grandkids' visit - we had it up and were swimming on Christmas Day!

Having a Splash SuperPool is the best way for me to enjoy my backyard AND swim to keep fit. What could be better than to come home from a long day at work and jump right in for a relaxing swim and great exercise? The price is right, too!
